

### BIPOL Video Coupler

Our video coupler connects an endoscope to a C-Mount CCD camera to view live images on a monitor. It offers an extra wide field of vision. Compatible with all our CCD cameras.

Part No	Description
618 000 102	C-Mount video coupler with adjustable focus

### Articulating holder Magic arm

Articulated holder with central locking lever to be mounted on a bench thanks to its clamp. Compatible with Rugged & P1 videoscopes.

Part No	Description
618 000 106	Magic arm articulated holder with clamp
618 000 111	Additional clamp (for videoscope holder)

### Industrial video monitor 19"

Our professional industrial video monitors have been specially developed to meet the needs of video control in technical endoscopy and fibroscopy. Excellent contrast and high definition (1280x1024 pixels) will allow you to view on screen the interior of your parts in a great comfort of use without visual fatigue. Numerous inputs allow you to connect a variety of devices to these monitors. In addition to two BNC ports, you also have a VGA input and an HDMI input.

Part No	Description
619 000 012	19" video monitor

### Storage cases

P1-VID. Carrying case specially designed to allow easy and safe transport of our cameras and accessories. Accepts as standard our 3 different video cameras, the LED-R portable lighting stick as well as a P1 or Rugged monitor.
