

Our Endo-lux T is a compact and powerful (80 watts) table light source with LED technology.

It comes with a continuous light adjustment (20 levels) and a standard RIWO output. It is compatible with video and photo applications and can be connected to our rigid endoscopes, fiberscopes.

Technical data	
LED output	80 Watts
Illumination	800,000 lux
Light intensity	20 levels adjustable
Spectral range	400nm-700nm
Color temperature	5,000 - 7,000 k
Cable connection	RIWO
Power	110V-220V / 50 Hz-60Hz
Dimensions	310x360x115mm
Weight	5,2 kgs
LED Lamp runtime	50,000 hours

To order

Part No	Description
Endo-Lux-T	Table light source bipolar Endo-lux T - 80 Watts - RIWO - bi tension 110/220 VA
Endo-Lux-C	Light cable SUPERFLEX Ø 4 x 1900mm Steel sheathing with outer PVC sheathing connection RIWO-STORZ/ACMI.

Main features :

- High brightness with low power consumption.
- Built-in memory function.
- Standby mode.
